

Association of Dutch Suppliers in the Oil and Gas Industry

ONS 2010

OFFSHORE NORTHERN SEAS

Stavanger, Norway
August 24 – 27, 2010

Once again, IRO would like to invite you to participate in the Dutch pavilion at Offshore Northern Seas (ONS), the major international oil and gas exhibition that takes place biannually in Stavanger, Norway. Show dates for the 2010 edition are from 24 – 27 August.

Figures ONS 2008:

Attendance at the 2008 Offshore Northern Seas (ONS) conference and exhibition set a new record, according to the official statistics. A total of 41.906 visitors were attracted to this major industry event in Stavanger from August 26 - 29, compared with 35.507 at the previous ONS in 2006. An increase compared to 2006.

“These figures speak for themselves,” says Kjell Ursin-Smith, chief executive of the ONS Foundation. “We’re very satisfied with this year’s attendance.”

Capacity in local hotels and transport was filled to bursting throughout the week, and ONS leased 825 private homes to help accommodate visitors.

“I believe we’ve reached the size we can and should have,” says Mr Ursin-Smith. “To ensure our programme and our exhibitors have a good impact, it’s important that we don’t get much larger.

“We’re also at a tight but acceptable level in terms of the capacity of the city to accommodate the show.”

Dutch pavilion 2010:

IRO assists participants before, during and after the show, helps with all the necessary forms and deadlines, provides you with standard stand construction.

For all exhibitors participating with their own representatives, the lounge facilities are included. This means that you can get free coffee and tea from the lounge, that you can order drinks and lunch through the lounge and that you are free to use the lounge as a meeting place where you can sit down and talk with relations.

You can register for participation in the Dutch pavilion at ONS 2010 by returning the application form to IRO **before October 30th 2009** and send it by fax: +31 79 341 97 64. IRO members can also participate in the IRO stand.
