

Niels Bot, Brazilian offshore / shipbuilding specialist

As a student of International Business and Management Studies in Amsterdam, Niels Alexander Bot studied in University IBMEC-RJ and did his internship during the year of 2008 in Rio de Janeiro. In addition he was asked by Holland Marine Equipment to compile a market study of the Brazilian shipbuilding industry to support The Netherlands Economic Mission to Brazil headed by Minister Eurlings in March 2009. Holland Shipbuilding Association subsequently sold Niels' report to other companies in the Industry.

Back in Holland Niels developed a strategy for a Dutch Shipyard for the Brazilian offshore shipbuilding market for which he was awarded the university's annual prize for the best dissertation.

Niels is very interested in becoming more involved on a professional basis in Brazilian Industry - in either shipbuilding or the oil and gas sectors. Beside a broad knowledge of the Brazilian market, he also speaks the Portuguese language and has a very interesting network in Brazil, which can possibly open doors and build valuable future connections.

You can contact Niels by e-mail: bot.niels@gmail.com
